TOULOUSE, FRANCE

SUMMARY

I'm a results-driven product designer with **10 years of experience** designing B2B desktop software applications for professionals in the automotive, video game and animation industries. Proficient in UI design, UX design, 3D modeling, and front-end web development.

SKILLS

Expertise: Product Design | UI Design | UX Design | 3D Modeling

Software: Figma | Blender | Autodesk Alias

Programming: HTML | CSS | JavaScript | Python

EDUCATION

London College of Communication

June 2014

Bachelor of Arts | *Graphic & Media Design, First Class Honours*

London, United Kingdom

LANGUAGES

English: Native level

French: Native level

EXPERIENCE

Senior Product Designer | *Ragdoll Dynamics*

June 2023 - May 2024

Designing a desktop application from scratch for character animation

Toulouse, France

- Designed a new desktop application and created a **design system** in Figma to support the developers.
- Created a **design system from scratch** in Figma to reduce friction with engineers for delivery.
- Prototyped interface elements using ImGui via JavaScript to test the Figma design system in production.

Senior Experience Designer | *Electronic Arts*

January 2022 - May 2023

Worked on improving tools and systems for the Frostbite game engine

Guildford, UK

- Shaped future character creation workflows for AAA titles including **Skate**, **EA FC** and **UFC**.
- Focused on character workflows for EA Sports & Racing titles, optimizing **runtime deformation** and **mass loading of character assets** in real-time.

Senior Product Designer | *The LEGO Group*

May 2019 - December 2021

Collaborated on LDD Pro, the in-house 3D CAD LEGO application

Billund, Denmark

- Led design by leveraging LEGO brick data such as **connectivity**, **manufacturing cost** and **collisions**.
- Reduced repetitive task time by **up to 90%** through redesigning essential tools.
- Contributed to building a digital pipeline from concept to marketing for **70%** of new LEGO products.

Experience Designer | *Autodesk*

June 2017 - May 2019

Collaborated on Alias, the leading 3D software for automotive surface modeling

Hanover, Germany

- Led design for **fast concept modelling** using subdivision tools and **computational design** in Alias.
- Conducted workshops with 60+ professional users from top automotive studios like **Volvo** and **Toyota**.
- Delivered tools that allowed customers to reach presentation stage for concept cars **three times faster**.

User Experience Designer | *Microsoft*

February 2015 - November 2015

Windows Devices Branded Experiences Team

London, UK

- Created interactive experiences in public spaces to raise awareness of the Windows Devices brand.
